# Current Achievements

## Tue, Nov 3, 2020 milestone 2

- User Role Based Permissions and Authentication on pages of the web application(Prerequisite: User Registration and Login Authentication, Database modeling )
  - SP, HL
- CRUD functions on Portfolio page(Prerequisite: Database modeling )
  - HL, HK
- Functionalities on Magazine page(Prerequisite: Database modeling )
  - JP
- CRUD functions on Magazine page(Prerequisite: Database modeling )
  - JP

The progress is slightly behind schedule, certain functions have not yet been implemented; the nature of the CSS update also requires to be performed continuously to adapt to any updates in the functionalities or changes in the page components. The functions that have not yet been implemented from Milestone 2 will be completed on milestone 3.
