-Milestone 4 Progress Update-

Team Name: Passion Developers

Product Manager:	Seonghoon Park	seonghoon.park@stonybrook.edu
Lead Programmer:	Hyunsoo Kim	hyunsoo.kim@stonybrook.edu
Product Owner:	Junghun Park	junghun.park@stonybrook.edu
Designer:	Hamin Lim	hamin.lim@stonybrook.edu

Original Schedule

Tue, Nov 24, 2020 milestone 4

- Receive feedback from peers, including IVY
 - HK, SP, JP and HL
- Debug reported bugs
 - HK, SP, JP and HL

Current Achievements

Tue, Nov 24, 2020 milestone 4

- Receive feedback from peers, including IVY
 - HK, SP, JP and HL
- Debug reported bugs
 - HK, SP, JP and HL

The progress is up to date. The expected achievements have been made, while two unexpected bugs have been spotted after deploying the project onto Azure VM. The email functionality that used to function with the django native smtp module is experiencing a port configuration error, and the right click prevention feature is not triggered on the viewMagazine page. Debugging on these features will be carried out until the final presentation.

Updated Schedule

Tue, Oct 27, 2020 milestone 1

- ~~— Database modeling(Prerequisite: None)~~
 - HK, SP, JP and HL
- ~~— Rendering basic user information to Templates(Prerequisite: Database modeling)~~
 - HK
- ~~— Admin panel setup(Prerequisite: Database modeling)~~
